

# CONDUCTING TERMS

## Conducting Posture

Chest lifted, shoulders down, back straight, arm out with elbow away from body, hand in a relaxed curve, fingers together, wrist slightly cocked.

## Ictus and Rebound

The two elements of conducting. Ictus is where the beat occurs. Rebound is the "in between" (½ as big as beat preceding)

## Common Beat Patterns (right-handed)

Note: "x" in figures represents the ictus
